

Reinis Udris

reinisu@gmail.com; <https://www.linkedin.com/in/reinis-udris/>

Product Owner (PSPO I & II) with a strong technical business analysis background and hands-on experience delivering **AI solutions** in regulated environments. I specialize in bridging the gap between business value and technical execution, managing backlogs for both **backend infrastructure (APIs, ETL)** and **client-facing AI features (Chatbots, Copilot)**. Expert in navigating **data compliance (LIA, GDPR)** for AI implementations in regulated financial environments. I leverage advanced data analysis to prioritize initiatives that drive operational efficiency and risk reduction.

Technical Skills & Tools

- **AI & QA Automation:** n8n, Genesys Cloud Copilot, MS Azure Language Models (TTS/STT), Automated Interaction Evaluation (Auto-QA), Chatbot Logic, Responsible AI (Legitimate Interest Assessments).
- **Data & Integration Strategy:** Data Lifecycle Management, SQL (Advanced Querying), Python, R (Statistical Modeling), API & ETL Concepts.
- **Product & Agile Management:** Jira, Scrum (PSPO I & II), Roadmap Strategy, User Story Mapping, Stakeholder Management.

Work Experience

2024 – now **Intrum, Product Owner**

- **AI & Automated QA:** Led the implementation of **Genesys Cloud Copilot** and **Virtual Agents** (utilizing MS Azure LLMs), and deployed **Automatic Interaction Evaluation** logic to streamline Quality Assurance processes.
- **Integrations & Infrastructure:** Orchestrated the delivery of REST API integrations and ETL data pipelines by defining business scope and acceptance criteria.
- **AI Compliance & Governance:** Collaborated with Legal and Privacy teams to conduct **Legitimate Interest Assessments (LIA)**, ensuring all AI features met strict regulatory standards (GDPR) and responsible AI principles.
- **Selected outcomes:** >90% reduction in platform incidents; 19% reduction in outbound handle time; ~20s reduction in inbound call handling via IVR automation.

2021 – 2024 **Intrum, Business Analyst**

- Performed complex SQL extraction to validate business logic, triage system defects, and support data-driven decision-making.
- Contributed to BI dashboards (PowerBI/Qlik) to support operational reporting and requirements discovery.

2017 – 2021 **Ministry of the Interior of Latvia, Intelligence Expert & Analyst**

- Conducted advanced analysis of complex, high-classification datasets to identify non-obvious patterns and risks. Synthesized multi-source intelligence into actionable reports for senior leadership.

2020 – 2021 **University of Latvia, Faculty of Humanities, lecturer**

- Taught introductory quantitative data analysis using R, research ethics, and Japanese language.

- 2016 – 2017 **Ministry of Education and Science of Latvia, World Bank project coordinator**
- Coordinated a high-profile World Bank project analyzing governance structures. Managed complex stakeholder alignment between international experts, government officials, and academic institutions to drive strategic project milestones and consensus.
- 2014 – 2015 **Infogram, Head of Infogr.am Japan**
- Led user adoption initiatives in the Japanese market, conducting training sessions to facilitate data literacy and helping stakeholders leverage data visualization tools for reporting.

Education

- 2013 – 2016 PhD in Sociology, Osaka University (Specialization: Quantitative Methods & Statistics)
- 2011 – 2013 MA in Sociology, Osaka University
- 2005 – 2009 BA, Humanities, University of Latvia

Certifications and Other Education

- 2026 Certified AI-Empowered SAFe® Product Owner/Product Manager
- 2025 Scrum.org, Professional Scrum Product Owner™ II (PSPO II)
- 2024 Scrum.org, Professional Scrum Product Owner™ I (PSPO I)
- 2023 Genesys Cloud CX: Professional Certification
- 2023 Harvard University's CS50x: Introduction to Computer Science
- 2023 Yellow Belt Lean and Six Sigma training
- 2023 Official (ISC)² Certified in Cybersecurity (CC)
- 2015 University of Oxford, Oxford Internet Institute, Summer Doctoral Programme
- 2014 Rice University (online), "Principles of Computing"
- 2014 Rice University (online), "An Introduction to Interactive Programming in Python"
- 2013 GESIS – Leibniz Institute for the Social Sciences – Statistical data analysis using R

Publications

- 2017 Psychological and social factors as predictors of online and offline deviant behavior among Japanese adolescents. *Deviant behavior*, 38(7), 792-809
- 2016 Cyber Deviance among Adolescents and the Role of Family, School, and Neighborhood: A Cross-National Study. *International Journal of Cyber Criminology*, 10(2), 127-146
- 2014 Cyberbullying among high school students in Japan: Development and validation of the Online Disinhibition Scale. *Computers in Human Behavior*, 41(0), 253-261
